Summary: I have 3 years of experience working as a Remote Web Fullstack developer, specializing in web applications using various frameworks like Angular, Java Spring Boot, Nextjs, and Nestjs in a Scrum environment. As a self-sufficient individual, I am capable of managing my own time effectively. Additionally, I have a decent command of the English language, allowing me to read and write documents proficiently. I am not constrained by technology and am always eager to learn new technologies to further my personal and professional development.

SKILL

Backend: Java, Typescript, PHP

Frontend: HTML, CSS, Javascript, Typescript
